Investment Objective and Strategy

The Fund primarily seeks long-term capital growth. The Fund primarily invests in a portfolio of common stocks and other equity securities of companies that are located outside of the United States. To a limited degree, the Fund may also invest in companies based in the United States. The Fund typically invests in the securities of medium to large size companies, but will also invest in smaller companies. The Fund's holdings may be limited to the securities of 40 to 60 different issuers and the Fund may focus its investments in companies located in or tied economically to particular countries or regions. The Fund generally invests in securities that are traded in the foreign securities markets, though it may invest significantly in emerging or developing markets.

Sector Allocation (%)

- Consumer Staples 30.3%
- Information Technology 23.2%
- Consumer Discretionary 13.4%
- Financials 11.7%
- Industrials 8.8%
- Health Care 6.6%
- Real Estate 1.6%
- Cash Equivalents 3.8%

This information is for illustrative purposes only and includes only invested cash; therefore, the sum of all sectors as a percentage of net assets may not equal 100%.

Top Ten Equity Holdings (%)

HDFC Bank, Ltd.	5.1%	Reckitt Benckiser Group, PLC	3.5%
Unilever NV - CVA	4.6%	Alibaba Group Holding, Ltd.	3.3%
Mastercard, Inc.	4.5%	SAP SE	3.3%
British American Tobacco, PLC	4.2%	Philip Morris International, Inc.	3.2%
Housing Development Finance Corp., Ltd.	3.5%	Nestle SA	2.9%

Growth of \$10,000 Investment

The Growth of \$10,000 Investment graph shows cumulative return of an initial investment of \$10,000 from 9/30/2007 to 9/30/2017. Figures include reinvestment of capital gains and dividends, but do not reflect the effect of any sales charges or redemption fees, which would lower these figures. The illustration is not intended to imply any future performance of the Fund. Past performance is no guarantee of future results.

*The Since Inception average annual total returns shown for Class A shares are for the period since their commencement on 9/30/2007. The Since Inception average annual total returns shown for the Advisor Class Shares and the benchmark are for the period since the commencement of those classes on 04/01/2013.

Fee Structure

Shareholder fees (fees paid directly from your investment)	Class A		Advisor Class
Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	5.75% ¹		None
Maximum deferred sales charge (load) (as a percentage of the lower of purchase price or redemption price)	1.00% ²		None

¹ Due to rounding of numbers in calculating a sales charge, you may pay more or less than what is shown above.

² A CDSC of 1.00% will be assessed on certain redemptions of Class A shares that are purchased without a sales charge.

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	Class A		Advisor Class
Management Fees	0.98%		0.98%
Distribution and Service (12b-1) Fees	0.30%		None
Other Expenses	0.33%		0.26%
Total Annual Fund Operating Expenses	1.61%		1.24%

The performance data quoted represents past performance. Past performance does not guarantee future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance of share classes will differ because each class is sold pursuant to different sales arrangements and bears different expenses. For performance data current to the most recent month-end call 800 524 2803 or visit forestersfinancial.com. Returns may reflect waivers or reimbursements of certain expenses. Absent these waivers or reimbursements, returns may be lower.

+Gross reflects no deduction for fees, expenses or taxes.

++Net reflects the deduction of foreign withholding taxes and dividends.

Important Information

This information should be preceded or accompanied by a current prospectus or summary prospectus which may be obtained by downloading it from our website, contacting your Representative, or calling 800 524 2803. There is no guarantee that the Fund will meet its stated investment objective. The principal risks of investing in the Fund are: *Market Risk. Foreign Securities Risk. Emerging Markets Risk. Liquidity Risk. Mid-Size and Small-Size Company Risk. Limited Holdings Risk. Security Selection Risk.*

Glossary of Terms

Foreign large-growth portfolios focus on high-priced growth stocks, mainly outside of the United States. Most of these portfolios divide their assets among a dozen or more developed markets, including Japan, Britain, France, and Germany. These portfolios primarily invest in stocks that have market caps in the top 70% of each economically integrated market (such as Europe or Asia ex-Japan). Growth is defined based on fast growth (high growth rates for earnings, sales, book value, and cash flow) and high valuations (high price ratios and low dividend yields). These portfolios typically will have less than 20% of assets invested in U.S. stocks. The MSCI EAFE Index (Gross) and the MSCI EAFE Index (Net) are free float-adjusted market capitalization indices that measure developed foreign market equity performance, excluding the U.S. and Canada. The Indices consists of 22 developed market country indices. The MSCI EAFE Index (Gross) is calculated on a total-return basis with maximum possible dividend reinvestment (before taxes). The MSCI EAFE Index (Net) is calculated on a total-return basis with the minimum possible dividend reinvestment (after taxes). These indices are unmanaged and not available for direct investment. Indexes are unmanaged and do not reflect the performance of any particular security. Alpha is a measure of performance on a risk-adjusted basis. Beta measures market volatility; a benchmark generally has a beta of 1.0; an investment with a beta under 1.0 is considered less volatile. R-Squared measures the percentage of a fund or security's movements that can be explained by movements in a benchmark index. Standard Deviation is a statistical measure of the historical volatility of a mutual fund or portfolio; the higher the number the greater the risk. Sharpe Ratio measures reward vs. risk; a higher number is more favorable. Portfolio Turnover is reflective of quarter end.
