Investment Objective and Strategy

The Fund seeks total return consisting of income and capital appreciation. Under normal circumstances, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in bonds. The Fund will normally invest its assets in debt and fixed income securities of issuers located in developed countries outside of the United States. The Fund will primarily invest in sovereign debt and currencies, as well as in investment grade corporate bonds. To a lesser extent, the Fund may also invest in emerging markets and below investment grade securities. The Fund may invest in forward foreign currency contracts in order to hedge its currency exposure in bond positions or to gain currency exposure. The Fund may also invest in interest rate and bond futures to manage interest rate risk and for hedging purposes.

Top Ten Fixed Income Holdings (%)

U.S. Treasury Notes, 1.122%, 04/30/2019	9.0%	Republic of Poland, 3.250%, 07/25/2025	3.9%

Credit Quality (%)

AAA	24.9%		■ AAA
AA	13.8%		■ AA
A	35.2%		■ A
BBB	16.2%		■ BBB
BB	9.9%		■ BB

The Credit Quality table depicts the distribution of the credit quality ratings of the Fund's portfolio holdings. In line with the methodology used by Barclays Global indices, the middle rating from the three rating agencies (Standard and Poor's Rating Services, Moody's Investors Services, Inc., and Fitch Ratings, Inc.) are assigned to each security. In the event that ratings are provided by only two agencies, the lowest rating is assigned. If only one agency assigns a rating, that rating is applied. The equivalent numerical rating is assigned to each security based on the security level scale. A portfolio level scale is applied on the weighted average calculation to round for fraction numerical ratings and then its converted to an alpha weighted average rating. Cash is included and receives the highest rating. All unrated bonds are applied the lowest rating on the numeric scale for portfolio compliance purposes.

Growth of \$10,000 Investment

The Growth of \$10,000 Investment graph shows cumulative return of an initial investment of \$10,000 from 08/17/2012 to 9/30/2017. Figures include reinvestment of capital gains and dividends, but do not reflect the effect of any sales charges or redemption fees, which would lower these figures. The illustration is not intended to imply any future performance of the Fund. Past performance is no guarantee of future results.

Benchmark	8.63	-3.14	0.47	-1.07	0.20

The performance data quoted represents past performance. Past performance does not guarantee future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance of share classes will differ because each class is sold pursuant to different sales arrangements and bears different expenses. For performance data current to the most recent month-end call 800 524 2803 or visit forestersfinancial.com. Returns may reflect waivers or reimbursements of certain expenses. Absent these waivers or reimbursements, returns may be lower.

*The Since Inception average annual total returns shown for Class A shares are for the period since their commencement on 08/17/2012. The Since Inception average annual total returns shown for the Advisor Class Shares and the benchmark are for the period since the commencement of those classes on 04/01/2013.

Fee Structure

Shareholder fees (fees paid directly from your investment)	Class A		Advisor Class	
Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	4.00% ^{1,2}		None	
Maximum deferred sales charge (load) (as a percentage of the lower of purchase price or redemption price)	1.00% ³		None	

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	Class A		Advisor Class	
Management Fees	0.75%		0.75%	
Distribution and Service (12b-1) Fees	0.30%		None	
Other Expenses	0.36%		0.33%	
Total Annual Fund Operating Expenses	1.41%		1.08%	

¹ Effective June 12, 2017, the maximum sales charge on Class A Shares was changed from 5.75% to 4.00%.

² Due to rounding of numbers in calculating a sales charge, you may pay more or less than what is shown above.

³ A CDSC of 1.00% will be assessed on certain redemptions of Class A shares that are purchased without a sales charge

Foreign Securities Risk. High Yield Securities Risk. Interest Rate Risk. Liquidity Risk. Market Risk. Non-Diversification Risk. Security Selection Risk. Sovereign and Quasi-Sovereign Debt Securities Risk. Supranational Risk. Valuation Risk.*

Glossary of Terms

World-bond portfolios invest 40% or more of their assets in foreign bonds. Some world-bond portfolios follow a conservative approach, favoring high-quality bonds from developed markets. Others are more adventurous and own some lower-quality bonds from developed or emerging markets. Some portfolios invest exclusively outside the U.S., while others regularly invest in both U.S. and non-U.S. bonds. The Citigroup World Government Bond ex-U.S. Index encompasses an all-inclusive universe of institutionally traded bonds, including all fixed-rate bonds with remaining maturities or one year or longer with amounts outstanding of at least the equivalent of \$25 million. Indexes are unmanaged and do not reflect the performance of any particular security. Alpha is a measure of performance on a risk-adjusted basis. Beta measures market volatility; a benchmark generally has a beta of 1.0; an investment with a beta under 1.0 is considered less volatile. R-Squared measures the percentage of a fund or security's movements that can be explained by movements in a benchmark index. Standard Deviation is a statistical measure of the historical volatility of a mutual fund or portfolio; the higher the number the greater the risk. Sharpe Ratio measures reward vs. risk; a higher number is more favorable. Portfolio Turnover is reflective of quarter end.
