Investment Objective and Strategy

The Fund seeks current income consistent with low volatility of principal. Under normal circumstances, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in investment grade bonds. For purposes of this 80% policy, investment grade bonds also include other investment grade fixed-income securities. The Fund may invest in a variety of different types of investment grade securities, including corporate bonds, securities issued or guaranteed by the U.S. Government or U.S. Government-sponsored enterprises, and mortgage-backed and other asset-backed securities. The Fund may invest in U.S. Treasury futures and options on U.S. Treasury futures to hedge against changes in interest rates. The Fund seeks to maintain an average weighted duration of between two to six years.

The Credit Quality table depicts the distribution of the credit quality ratings of the Fund's portfolio holdings as reported by Moody's Investors Services, Inc. ("Moody's"). Securities not rated by Moody's are classified as Unrated for purposes of the Credit Quality table even though they may be rated by another Nationally Recognized Statistical Rating Organization. The investment advisor performs its own credit analysis of securities in the Unrated category and assigns comparable ratings that are used for compliance with the Fund's investment policies.

Growth of \$10,000 Investment

The Growth of \$10,000 Investment graph shows cumulative return of an initial investment of \$10,000 from 05/16/2014 to 6/30/2017. Figures include reinvestment of capital gains and dividends, but do not reflect the effect of any sales charges or redemption fees, which would lower these figures. The illustration is not intended to imply any future performance of the Fund. Past performance is no guarantee of future results.

The performance data quoted represents past performance. Past performance does not guarantee future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance of share classes will differ because each class is sold pursuant to different sales arrangements and bears different expenses. For performance data current to the most recent month-end call 800 524 2803 or visit forestersfinancial.com. Returns may reflect waivers or reimbursements of certain expenses. Absent these waivers or reimbursements, returns may be lower.

Fee Structure

Shareholder fees (fees paid directly from your investment)		
	Class A	Advisor Class
Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	2.50% ^{1,2}	None
Maximum deferred sales charge (load) (as a percentage of the lower of purchase price or redemption price)	1.00% ³	None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)		
	Class A	Advisor Class
Management Fees	0.66%	0.66%
Distribution and Service (12b-1) Fees	0.30%	None

¹ Effective June 12, 2017, the maximum sales charge on Class A Shares was changed from 5.75% to 2.50%.

² Due to rounding of numbers in calculating a sales charge, you may pay more or less than what is shown above.

³ A CDSC of 1.00% will be assessed on certain redemptions of Class A shares that are purchased without a sales charge

⁴ The Adviser has contractually agreed to limit fees and/or reimburse expenses of the Fund until at least January 31, 2018, to the extent that Total Annual Fund Operating Expenses (exclusive of interest expenses, taxes, brokerage commissions, acquired fund fees and expenses, dividend costs related to short sales, and extraordinary expenses, such as litigation expenses, if any) exceed 1.05% for Class A and 0.75% for Advisor Class shares. The Adviser can be reimbursed by the Fund within three years after the date the fee limitation and/or expense reimbursement has been made by the Adviser, provided that such repayment does not cause the expenses of the Fund's Class A or Advisor Class shares to exceed the applicable expense ratio in place at the time the expenses were waived or assumed. The fee limitation and/or expense reimbursement may be terminated or amended prior to January 31, 2018, only with the approval of the Fund's Board of Trustees.

Glossary of Terms

Short-term bond portfolios invest primarily in corporate and other investment-grade U.S. fixed-income issues and typically have durations of 1.0 to 3.5 years. These portfolios are attractive to fairly conservative investors, because they are less sensitive to interest rates than portfolios with longer durations. The Bank of America Merrill Lynch 1-5 Year US Broad Market Index tracks the performance of U.S. dollar denominated investment grade debt publicly issued in the U.S. domestic market, including U.S. Treasury, quasi-government, corporate, securitized and collateralized securities. Investors cannot invest directly in an index. Indexes are unmanaged and do not reflect the performance of any particular security. Alpha is a measure of performance on a risk-adjusted basis. Beta measures market volatility; a benchmark generally has a beta of 1.0; an investment with a beta under 1.0 is considered less volatile. R-Squared measures the percentage of a fund or security's movements that can be explained by movements in a benchmark index. Standard Deviation is a statistical measure of the historical volatility of a mutual fund or portfolio; the higher the number the greater the risk. Sharpe Ratio measures reward vs. risk; a higher number is more favorable. Portfolio Turnover is reflective of quarter end.
