## 2. Suitability

**Q1. Are you investing towards your first home purchase and/or are you investing for the long-term, to at least age 60?**

No ☐ The Government penalty incurred in the event of a Lifetime ISA withdrawal before age 60 if not used towards purchasing a first home could mean that you get back less than you have invested. We therefore cannot proceed further with this application, and therefore this application form should not be submitted.

Yes ☐ Go to Q2.

**Q2. Are you happy to accept the additional risks associated with moving some or all of your existing Stocks and Shares ISA to a Lifetime ISA?**

No ☐ As you are not comfortable to accept the additional risks your existing Stocks and Shares ISA investment should not be transferred into a Lifetime ISA and therefore this application form should not be submitted.

Yes ☐ Based on the additional information you have provided, you may move some, or all of your existing Stocks and Shares ISA investment into a Lifetime ISA.

### 3. Eligibility

If you are opening the Lifetime ISA rather than adding to a Lifetime ISA you already have, you must be under the age of 40. How much you are allowed to invest in ISAs overall in a tax year, and how money can be transferred between types of ISAs, depends on whether the money is from current or previous tax years, or a combination of both.

The following questions are designed to ensure that your Stocks and Shares ISA investment is moved to the Lifetime ISA of your Plan in the most appropriate way and in keeping with the ISA rules. If you already have the Lifetime ISA you need to take any contributions made into consideration as part of your options below.

#### 3a. Previous tax year funds

Q1. Do you have previous tax year funds within your Stocks and Shares ISA?

Yes ☐ By transferring previous tax year funds, the amount will count towards the £4,000 Lifetime ISA contribution limit but not the overall ISA contribution limit for the tax year. You may wish to consider Option A or Option B in Section 4 depending on the value of these funds.

If previous tax year's funds are less than £4,000 and you have current tax year contributions, you may wish to consider Option C. As current tax year contributions need to be transferred in full, this option allows you to combine a transfer of part or all of your previous tax year funds with a transfer of current tax year funds. This total amount cannot exceed £4,000.

No ☐ If you wish to only transfer current tax year funds from your Stocks and Shares ISA complete the section below.

#### 3b. Current tax year funds

Where funds are transferred which contain current year contributions they must be transferred in full. Where that occurs, the current year contributions will count towards the overall ISA contribution limit in the usual way. You must ensure that you do not exceed your overall ISA allowance.

Q2. Are the current tax year funds within your Stocks and Shares ISA £4,000 or less?

Yes ☐ You may wish to consider Option D in Section 4.

No ☐ You may wish to consider Option E in Section 4.

### 4. Transfer and/or withdrawal instructions

Please use the options below to advise us of your payment instructions. All transfers relate to your existing Stocks and Shares ISA.

A ☐ I wish to transfer 100% of the fund value of my previous tax year's Stocks and Shares ISA, as the total fund value is £4,000 or less.

B ☐ I wish to transfer £  from the fund value of my previous tax year's Stocks and Shares ISA.

C ☐ I wish to combine a transfer of 100% of the fund value of my current tax year's Stocks and Shares ISA with a part transfer of my previous tax year's Stocks and Shares ISA, so that the total amount transferred into the Lifetime ISA is £ .

D ☐ I wish to transfer 100% of the fund value of my current tax year's Stocks and Shares ISA.

E ☐ I wish to withdraw £  from my current tax year's Stocks and Shares ISA fund value and for this amount to be paid into the Lifetime ISA (I am aware that this payment will count towards my current tax year's ISA allowance).
