All investment involves risk, including possible loss of principal. You can lose money by investing in any fund.

¹ Favorably rated Morningstar funds includes First Investors Funds that have at least 3 stars or above rating among the Overall.

The Morningstar Rating™ for funds, or “star rating”, is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product’s monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. Ratings displayed with hollow stars represent Morningstar Extended Performance Ratings. Morningstar provides adjusted historical returns and an Extended Performance Rating for some mutual fund share class that don’t have a one-, three-, five-, or 10-year performance history. These hypothetical Morningstar Ratings are based on the historical performance of the oldest share class of the fund, adjusted for fees and expenses.

First Investors Funds are managed by Foresters Investment Management Company, Inc. and distributed by Foresters Financial Services, Inc.; each is a wholly owned subsidiary of Foresters Financial Holding Company, Inc.
