\*\* Measured against the Fund's benchmark

## Investment Objective and Strategy

The Fund seeks a high level of interest income that is exempt from both federal and state income tax for individual residents of the state of Connecticut. The Fund also seeks income that is a tax preference item for purposes of the federal alternative minimum tax ("AMT"). Under normal circumstances, at least 80% of the Fund's net assets (plus any borrowing for investment purposes) will be invested in municipal securities that pay interest that is exempt from federal income tax and any applicable state income tax for individual residents of the state of Connecticut, but may invest up to 20% of its net assets in securities that pay interest that is a tax preference item. The Fund invests in municipal bonds and other municipal securities, including variable rate and floating rate notes that pay interest that is exempt from federal income tax and any applicable state income tax for Connecticut residents. The Fund generally concentrates its investments in municipal bonds issued by Connecticut. However, the Fund may also invest significantly in municipal securities that are issued by U.S. Commonwealths, possessions, or territories, such as Puerto Rico if the interest on them is exempt from state income tax for state residents.

## Credit Quality (%)

AAA	10.14%
AA	61.23%
A	11.94%
PRE/ETM	16.68%

The Credit Quality table depicts the distribution of the credit quality ratings of the Fund's portfolio holdings as reported by Standard and Poor's Rating Services ("S&P"). For securities rated by Moody's Investors Services, Inc. ("Moody's") the S&P equivalent is shown. Securities not rated by S&P or Moody's are classified as Unrated for purposes of the Credit Quality table even though they may be rated by another Nationally Recognized Statistical Rating Organization, except for Pre-refunded/ETM securities as noted below. The investment adviser performs its own credit analysis of securities in the Unrated category and assigns comparable ratings that are used for compliance with the Fund's investment policies. The Pre-refunded/ETM category consists of bonds secured by U.S. government or other high-quality securities that are not re-rated by an NRSRO.

## Growth of \$10,000 Investment

— Connecticut Tax Exempt Fund \$14,700

The Growth of \$10,000 Investment graph shows cumulative return of an initial investment of \$10,000 from 9/30/2008 to 9/30/2018. Figures include reinvestment of capital gains and dividends, but do not reflect the effect of any sales charges or redemption fees, which would lower these figures. The illustration is not intended to imply any future performance of the Fund. Past performance is no guarantee of future results.

## Annual Performance before sales charge (%) (all distributions reinvested)

	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	YTD 2018

## Historical Return (%)

As of 09/30/2018	Cumulative	Average Annualized Total Return			
	Year To Date	1 Year	3 Year	5 Year	10 Year
<b>Total Return</b> (Without Sales Charge)					
Class A	-0.89	-0.66	1.00	2.62	3.93
<b>SEC Standardized Return<sup>1</sup></b> (With Sales Charge)					
Class A	-	-4.64	-0.35	1.78	3.51
<b>Benchmark</b>	-0.51	0.24	2.33	3.75	4.95

The performance data quoted represents past performance. Past performance does not guarantee future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance of share classes will differ because each class is sold pursuant to different sales arrangements and bears different expenses. For performance data current to the most recent month-end call 800 524 2803 or visit foresters.com. Returns may reflect waivers or reimbursements of certain expenses. Absent these waivers or reimbursements, returns may be lower.

## Fee Structure

Shareholder fees (fees paid directly from your investment)	
	Class A
Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	4.00% <sup>1</sup>
Maximum deferred sales charge (load) (as a percentage of the lower of purchase price or redemption price)	1.00% <sup>2</sup>

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
	Class A
Management Fees	0.60%
Distribution and Service (12b-1) Fees	0.30%
Other Expenses	0.16%
<b>Total Annual Fund Operating Expenses</b>	<b>1.06%</b>

<sup>1</sup> Due to rounding of numbers in calculating a sales charge, you may pay more or less than what is shown above.

<sup>2</sup> A CDSC of 1.00% will be assessed on certain redemptions of Class A shares that are purchased without a sales charge.

Interest Rate Risk. Liquidity Risk. Market Risk. Municipal Securities Risk. Security Selection Risk. Tax Risk.*

## Glossary of Terms

Muni Connecticut portfolios invest in bonds issued by state and local governments to fund public projects. The income from such bonds is generally free from federal taxes and from state taxes in the issuing state. To get the state-tax benefit, these portfolios buy bonds from only one state. The BofA Merrill Lynch Municipal Securities Master Index is a total return performance benchmark for the investment grade tax-exempt bond market. Indexes are unmanaged and do not reflect the performance of any particular security. Alpha is a measure of performance on a risk-adjusted basis. Beta measures market volatility; a benchmark generally has a beta of 1.0; an investment with a beta under 1.0 is considered less volatile. R-Squared measures the percentage of a fund or security's movements that can be explained by movements in a benchmark index. Standard Deviation is a statistical measure of the historical volatility of a mutual fund or portfolio; the higher the number the greater the risk. Sharpe Ratio measures reward vs. risk; a higher number is more favorable. Portfolio Turnover is reflective of quarter end.
