Investment Objective and Strategy

The Fund seeks high current income. The Fund primarily invests in high yield, below investment grade corporate bonds (commonly known as "high yield" or "junk bonds"). These bonds provide a higher level of income than investment grade bonds because they have a higher risk of default. The Fund may also invest in other high yield debt securities, such as assignments of syndicated bank loans. The Fund seeks to reduce the risk of a default by selecting bonds through careful credit research and analysis. The Fund seeks to reduce the impact of a default by diversifying its investments among bonds of many different companies and industries.

The Credit Quality table depicts the composite ratings of the Fund's portfolio holdings. The composite ratings reflect an average of the ratings assigned to a security by up to three major credit rating agencies, typically Standard and Poor's Rating Services, Moody's Investors Services, Inc., and Fitch Ratings, Inc. The ratings are converted into their numeric equivalents before being averaged to allow for rounding when necessary. The average is then converted back to the equivalent alphabetical rating reflected in the table. The Fund's subadviser performs its own credit analysis of securities that are unrated and assigns comparable ratings that are used for compliance with the Fund's investment policies.

Growth of \$10,000 Investment

The Growth of \$10,000 Investment graph shows cumulative return of an initial investment of \$10,000 from 9/30/2008 to 9/30/2018. Figures include reinvestment of capital gains and dividends, but do not reflect the effect of any sales charges or redemption fees, which would lower these figures. The illustration is not intended to imply any future performance of the Fund. Past performance is no guarantee of future results.

The performance data quoted represents past performance. Past performance does not guarantee future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance of share classes will differ because each class is sold pursuant to different sales arrangements and bears different expenses. For performance data current to the most recent month-end call 800 524 2803 or visit foresters.com. Returns may reflect waivers or reimbursements of certain expenses. Absent these waivers or reimbursements, returns may be lower.

Fee Structure

Shareholder fees (fees paid directly from your investment)	Class A		Advisor Class	
Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	4.00% ^{1,2}		None	
Maximum deferred sales charge (load) (as a percentage of the lower of purchase price or redemption price)	1.00% ³		None	

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	Class A		Advisor Class	
Management Fees	0.72%		0.72%	
Distribution and Service (12b-1) Fees	0.30%		None	
Other Expenses	0.21%		0.24%

Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	1.21%		0.94%	

¹ Effective June 12, 2017, the maximum sales charge on Class A Shares was changed from 5.75% to 4.00%.

² Due to rounding of numbers in calculating a sales charge, you may pay more or less than what is shown above.

³ A CDSC of 1.00% will be assessed on certain redemptions of Class A shares that are purchased without a sales charge.

⁴ The Adviser has contractually agreed to limit fees and/or reimburse expenses of the Fund until at least June 1, 2019, to the extent that Total Annual Operating Expenses (exclusive of interest expenses, taxes, brokerage commissions, acquired fund fees and expenses, dividend costs related to short sales, and extraordinary expenses, such as litigation expenses, if any) exceed 1.21% for Class A and 0.94% for Advisor Class shares. The Adviser can be reimbursed by the Fund within three years after the date the fee limitation and/or expense reimbursement has been made by the Adviser, provided that such repayment does not cause the expenses of the Fund's Class A or Advisor Class shares to exceed the applicable expense ratio in place at the time the expenses are waived or assumed or the current limits established under the Expense Limitation Agreement. The fee limitation and/or expense reimbursement may be terminated or amended prior to June 1, 2019, only with the approval of the Fund's Board of Trustees.

Glossary of Terms

High-yield bond portfolios concentrate on lower-quality bonds, which are riskier than those of higher-quality companies. These portfolios generally offer higher yields than other types of portfolios, but they are also more vulnerable to economic and credit risk. These portfolios primarily invest in U.S. high-income debt securities where at least 65% or more of bond assets are not rated or are rated by a major agency such as Standard & Poor's or Moody's at the level of BB (considered speculative for taxable bonds) and below. The BofA Merrill Lynch BB-B US Cash Pay High Yield Constrained Index contains all securities in the BofA Merrill Lynch US Cash Pay High Yield Index rated BB1 through B3, based on an average of Moody's Investment Service, Inc., Standard & Poor's Ratings Services and Fitch Ratings, but caps issuer exposure at 2%. Indexes are unmanaged and do not reflect the performance of any particular security. Alpha is a measure of performance on a risk-adjusted basis. Beta measures market volatility; a benchmark generally has a beta of 1.0; an investment with a beta under 1.0 is considered less volatile. R-Squared measures the percentage of a fund or security's movements that can be explained by movements in a benchmark index. Standard Deviation is a statistical measure of the historical volatility of a mutual fund or portfolio; the higher the number the greater the risk. Sharpe Ratio measures reward vs. risk; a higher number is more favorable. Portfolio Turnover is reflective of quarter end.
