

FIRST INVESTORS LIFE VARIABLE ANNUITY FUND C
INDIVIDUAL VARIABLE ANNUITY CONTRACTS
OFFERED BY
FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Statement of Additional Information dated May 1, 2018

This Statement of Additional Information (“SAI”) is not a prospectus and should be read in conjunction with the prospectuses for the variable annuity contracts funded by First Investors Life Variable Annuity Fund C (“Separate Account C” or the “Separate Account”), which may be obtained at no cost by writing to Foresters Life Insurance and Annuity Company, Raritan Plaza 1, Edison, New Jersey 08837, or by telephoning (800) 832-7783 or by visiting our website at www.foresters.com. Separate Account C currently funds two variable annuity contracts: an individual variable annuity contract called the “Tax Tamer I” with prospectus dated May 1, 2018 and an individual variable annuity contract called the “First Choice” with prospectus dated May 1, 2018.

Unless otherwise noted, the terms in this SAI have the same meaning as in the prospectuses.

GENERAL DESCRIPTION

Foresters Life Insurance and Annuity Company. Foresters Life Insurance and Annuity Company, 40 Wall Street, New York, New York 10005 (“FLIAC”), a stock life insurance company incorporated under the laws of the State of New York in 1962, writes life insurance and annuities. Foresters Financial Holding Company, Inc. (“FFHC”), a holding company, owns all of the voting common stock of Foresters Investment Management Company, Inc. (“FIMCO” or “Adviser”) and all of the outstanding stock of FLIAC, Foresters Financial Services, Inc. (“FFS” or “Underwriter”) and Foresters Investor Services, Inc. (“FIS”), the transfer agent for First Investors Life Series Funds (“Life Series Funds”). The Independent Order of Foresters (“Foresters”) controls FFHC and, therefore, the Adviser and FLIAC. Foresters is a Canadian fraternal benefit society with operations in Canada, the United States and the United Kingdom and its principal business address is 789 Don Mills Road, Toronto, Canada M3C 1T9.

The following chart provides information about the Officers and Directors of FLIAC.

Name	FLIAC Office	Principal Occupation for Last Five Years
Carol Lerner Brown	Secretary	Assistant Secretary FFS since 1989; Secretary FLIAC and FIMCO since 1989; Assistant Secretary FFHC since 2011; Secretary FIS since 1989; and Secretary Foresters Advisory Services, LLC since 2012.
Sonia A. Baxendale	Director	Senior Executive Vice-President, CIBC Wealth Management, Executive Vice-President, Asset Management, Card Products and Collections, and Executive Vice-President of Global Private Banking and Investment Management Services 1992-2011. Board of Director of CI Financial and Laurentian Bank; Co-Interim President and CEO of FFHC 2017 through January 2018. Independent Director of F F H C and FLIAC effective February 2018. Chair of the Human Capital and Governance Committee, Independent Order of Foresters.
Craig D. Cloyed	Director	Director FLIAC and FFHC since 2012; President and Director Calvert Investment Distributors, Inc. from 1998 to March 2012.
William H. Drinkwater	Senior Vice President and Chief Actuary	Senior Vice President and Chief Actuary FLIAC since 2003.
Diane Fox	Vice President, Insurance Operations	Vice President, Insurance Operations of FLIAC as of 2017.
Francis X. Gannon	Chief Financial Officer and Treasurer	Chief Financial Officer, Foresters Asset Management, Inc. since 2016. Chief Financial Officer and Treasurer FLIAC, FFS, FIS and FFHC since 2013; Chief Financial Officer FIMCO since 2013; Chief Financial Officer Foresters Advisory Services, LLC since 2013; Principal FX Capital LLC 2009-2013; Corporate Comptroller AlliedBarton 2010-2011; and Director Jefferson Wells

		International 2008-2009.
Steven Guterman	Director and Chairman	Chairman of the Board – FLIAC and FFHC since 2018. Director FLIAC and FFHC since 2012; Chief Executive Officer Instant Labs Medical Diagnostics Corp. since 2010.
Jason Helbraun	Assistant Vice President	Assistant Vice President FLIAC since 2006.
Mehul N. Kapadia	Chief Information Officer	Chief Information Officer since 2016, Vice President, Operational Transformation through 2016. Vice President – Systems & Operations, Individual Life Liberty Mutual Insurance, Dover, NH. 2013 – 2015; Business Program Manager – Life Works, Individual Life 2011– 2013.
Clarice Ma	Assistant Vice President, Assistant Comptroller	Senior Compliance and Financial Analyst, Church Pension Group, New York, NY 10/2004 - 4/2015. Assistant Vice President and Assistant Comptroller, Foresters Life Insurance and Annuity Company since 2015.
Martha E. Marcon	Director	Director FLIAC and FFHC since 2011; Director Independent Order of Foresters since 2009; Director Mercury General Corp. 2008-present; and Director NIA Group 2006-present.
Loretta McCarthy	Director	Director FLIAC and FFHC since 2012; Managing Director Golden Seeds, LLC since 2005.
E. Blake Moore, Jr.	Director	President and Director FIMCO since February 2018; Director FFHC since February 2018; Director FLIAC since February 2018; Director FFS since February 2018; Director FIS since February 2018; Board Manager of FAS since February 2018. UBS Asset Management, New York, NY 2015-2017; MD, Head of Americas (through 2016) Mackenzie Investments, Toronto, ON, Canada 2011-2014.
Knut A. Olson	President and Director	President, North America Life and Annuity and FLIAC since January 2017; Senior Vice President Thrivent Financial – various positions including VP and SVP 2002-Nov 2016; District Representative/AGA Lutheran Brotherhood 1990-2002.

Paul D. Reaburn	Director	Director-FLIAC since 2017. Executive Vice President and Chief Financial Officer, The Independent Order of Foresters Aug 2012 - Present; Head of Life Practice, Dion, Durrell & Associates Jan 2011-Jul 2012; Chief Financial Officer/Chief Operating Officer, Aegon USA Oct 1997 – April 2009; Head of Actuarial (last position held), The Independent Order of Foresters Aug 1979 – Oct 1997.
Jeremy W. Ragsdale	Vice President, Product Development and Pricing	Vice President, Product Development and Pricing of FLIAC as of 2017.
David Schimmel	Vice President	Vice President since 2011 and Assistant Vice President 2006-2011 of FLIAC.
John Shey	Assistant Vice President	Assistant Vice President FLIAC since 2006.
Michael Stramaglia	Interim President and CEO, NALIA	Interim President and CEO, NALIA 2017 through January 2018.

Separate Account Assets. Separate Account C was established on December 21, 1989 under the provisions of the New York Insurance Law. Separate Account C's assets are segregated from the assets of FLIAC, and that portion of Separate Account C's assets having a value equal to, or approximately equal to, the reserves and contract liabilities under the Contracts are not chargeable with liabilities arising out of any other business of FLIAC. Separate Account C is registered with the Securities and Exchange Commission ("Commission") as a unit investment trust under the Investment Company Act of 1940, as amended (the "1940 Act"), but such registration does not involve any supervision by the Commission of the management or investment practices or policies of the Separate Account.

SERVICES

Custodian. FLIAC, subject to applicable laws and regulations, is the custodian of the securities of the Subaccounts of Separate Account C. We maintain the records and accounts of Separate Account C.

Independent Registered Public Accounting Firm. KPMG LLP, 345 Park Avenue, New York, NY 10154, is the independent registered public accounting firm for Separate Account C and Foresters Life Insurance and Annuity Company.

Underwriter. FLIAC and Separate Account C have entered into an Underwriting Agreement with FFS. FFS, an affiliate of FLIAC and of the Adviser, has its principal business address at 40 Wall Street, New York, New York 10005. For the fiscal years ended December 31, 2015, 2016 and 2017 FFS received underwriting commissions with respect to Separate Account C of \$1,338,225, \$1,115,094 and \$1,230,809 respectively, in connection with the distribution of Separate Account C contracts in a continuous offering.

FLIAC anticipates continuing to offer new First Choice contracts, but reserves the right to discontinue this offering. New Tax Tamer I contracts are not currently being offered for sale. Existing Tax Tamer I Contractowners may, however, continue to make additional premium payments to their existing contracts.

The Contracts are sold by insurance agents licensed to sell variable annuities, who are registered representatives of the Underwriter or by other broker-dealers who have selling agreements with the Underwriter. FFS is a registered broker-dealer under the Securities Exchange Act of 1934, and a member of the Financial Industry Regulatory Authority.

VALUATION

Value of an Accumulation Unit. For each Subaccount of Separate Account C, the value of an Accumulation Unit initially was set arbitrarily at \$10.00. The value of an Accumulation Unit for any subsequent Valuation Period is determined by multiplying the value of an Accumulation Unit for the immediately preceding Valuation Period by the Net Investment Factor for the Valuation Period for which the Accumulation Unit Value is being calculated (see Appendix I, Example B). The investment performance of each Fund, and expenses and deductions of certain charges, affect the Accumulation Unit Value. The value of an Accumulation Unit for the Subaccounts may increase or decrease from Valuation Period to Valuation Period.

Net Investment Factor. The Net Investment Factor for each Subaccount for any Valuation Period is determined by dividing (a) by (b) and subtracting (c) from the result, where:

(a) is the net result of:

the net asset value per share of the applicable Fund determined at the end of the current Valuation Period, plus

the per share amount of any dividend or capital gains distributions made by the applicable Fund if the “ex-dividend” date occurs during the current Valuation Period,

(b) is the net asset value per share of the applicable Fund determined as of the end of the immediately preceding Valuation Period.

(c) is a factor representing the charges deducted for mortality and expense risks. For Separate Account C, such factor is equal on an annual basis to 1.00% of the daily net asset value of the applicable Subaccount.

The Net Investment Factor may be greater or less than one, and therefore, the value of an Accumulation Unit for any Subaccount may increase or decrease. (For an illustration of this calculation, see Appendix I, Example A.)

Value of Amounts Allocated to the Fixed Account. The First Choice Contract also allows Contractowners to allocate value to the Fixed Account. The Accumulation Value in a First Choice Contract thus consists of the Subaccount Accumulation Value in each Subaccount to which a Contractowner allocates value, which is based on the Accumulation Unit values described above, and the Fixed Account Accumulation Value. The Fixed Account Accumulation Value at any time is equal to the amount determined as described in the First Choice Contract’s prospectus under the heading “THE CONTRACT IN DETAIL: THE ACCUMULATION PHASE – Fixed Account Accumulation Value.”

Value of an Annuity Unit. For each Subaccount of Separate Account C, the value of an Annuity Unit initially was set arbitrarily at \$10.00. The value of an Annuity Unit for any subsequent Valuation Period is determined by multiplying the Annuity Unit Value for the immediately preceding Valuation Period by the Net Investment Factor for the Valuation Period for which the Annuity Unit Value is being calculated, and multiplying the result by an interest factor to offset the effect of an investment earnings rate of 3.5% per annum (or 3.0% or a different rate chosen by a Contractowner for First Choice Contracts), which is assumed in the Annuity Tables contained in the Contracts. (For an illustration of this calculation, see Appendix III, Example A.)

Amount of Annuity Payments. When annuity payments are to commence, the Accumulated Value (or the Accumulation Value for First Choice Contracts) to be applied to a variable annuity option will be determined by multiplying the value of an Accumulation Unit for the Business Day (or the Valuation Date for First Choice Contracts) on or immediately preceding the seventh day before the Annuity Commencement Date (or the Maturity Date for First Choice Contracts) by the number of Accumulation Units owned. This seven-day period is used to permit calculation of amounts of annuity payments and mailing of checks in advance of the due date. At that time any applicable Premium taxes not previously deducted may be deducted from the Accumulated Value to determine the net Accumulated Value. For First Choice Contracts, the net amount to be applied to an Annuity Option, the Net Accumulation Value, consists of the amounts derived from the Accumulation Units, as described above, as well as the Fixed Account Accumulation Value. The resultant value is then applied to the Annuity Tables set forth in the Contract to determine the amount of the first monthly annuity payment. The Contract contains Annuity Tables setting forth the amount of the first monthly installment for each \$1,000 of Accumulated Value applied. These Annuity Tables vary according to the Annuity Option selected by the Contractowner and according to the sex and adjusted age of the Annuitant and any Joint Annuitant at the Annuity Commencement Date. The Contracts contain a formula for determining the adjusted age. The Annuity Tables are determined from the Progressive Annuity Table with interest at 3.5% per year and assumes births prior to 1900, adjusted by a setback of four years of age for persons born 1900 and later and an additional setback of one year of age for each completed five years by which the year of birth is later than 1900, except for First Choice Contracts. For First Choice Contracts the Annuity Tables are determined from the A2000 Individual Annuitant Mortality Table Age Last Birthday and an Assumed Investment Return of 3.00% or a different rate chosen by the Contractowner and the adjusted age is the age of the annuitant minus one year for each completed 10-year period measured from the year 2000 to the date of Annuity Payment Option commencement. Annuity Tables used by other insurers may provide greater or less benefits to the Annuitant.

The dollar amount of the first monthly Variable Payment, based on the Subaccount determined as above, is divided by the value of an Annuity Unit for the Subaccount for the Business Day on or immediately preceding the seventh day before the Annuity Commencement Date to establish the number of Annuity Units representing each monthly payment under the Subaccount. This seven-day period is used to permit calculation of amounts of annuity payments and mailing of checks in advance of the due date. This number of Annuity Units remains fixed for all variable annuity payments. The dollar amount of the second and subsequent variable annuity payments is determined by multiplying the fixed number of Annuity Units for the Subaccount by the applicable value of an Annuity Unit Value for the Business Day on or immediately preceding the seventh day before the due date of the payment. The value of an Annuity Unit will vary with the investment performance of the corresponding Fund, and, therefore, the dollar amount of the second and subsequent variable annuity payments may change from month to month. (For an illustration of the calculation of the first and subsequent Variable Payments, see Appendix III, Examples B, C and D.)

A fixed annuity provides annuity payments which remain fixed as to dollar amount throughout the payment period and is based on an assumed interest rate of 3.5% (or 2.5% for the First Choice Contract) per year built into the Annuity Tables in the Contract.

OTHER INFORMATION

Time of Payments. All payments due under the Contracts will ordinarily be made within seven days of the payment due date or within seven days after the date of receipt of a request for partial surrender or termination. However, FLIAC reserves the right to suspend or postpone the date of any payment due under the Contracts (1) for any period during which the New York Stock Exchange (“NYSE”) is closed (other than customary weekend and holiday closings) or during which trading on the NYSE, as determined by the Commission, is restricted; (2) for any period during which an emergency, as determined by the Commission, exists as a result of which disposal of securities held by the Fund is not reasonably practical or it is not reasonably practical to determine the value of the Fund’s net assets; or (3) for such other periods as the Commission may by order permit for the protection of security holders or as may be permitted under the 1940 Act.

In addition, for the First Choice Contract, FLIAC may defer for up to six months the payment of any full or partial surrender of amounts allocated to the Fixed Account.

Reports to Contractowners. FLIAC will mail to each Contractowner, at the last known address of record at least annually, a report containing such information as may be required by any applicable law or regulation and a statement of the Accumulation Units credited to the Contract for each Subaccount and the Accumulation Unit Values. In addition, latest available reports of the Life Series Funds will be mailed to each Contractowner.

Assignment. Any amounts payable under the Contracts may not be commuted, alienated, assigned or otherwise encumbered before they are due. To the extent permitted by law, no such payments shall be subject in any way to any legal process to subject them to payment of any claims against any Annuitant, Joint Annuitant or Beneficiary. The Contracts may be assigned. No assignment of a Contract shall be binding on FLIAC unless such assignment is in writing and is filed with FLIAC at its home office.

RELEVANCE OF FINANCIAL STATEMENTS

The values of the interests of Contractowners under the variable portion of the Contracts will be affected solely by the investment results of each Separate Account’s Subaccounts. The financial statements of FLIAC as contained herein should be considered only as bearing upon FLIAC’s ability to meet its obligations to Contractowners under the Contracts, and they should not be considered as bearing on the investment performance of the Subaccounts.

APPENDICES

APPENDIX I

**EXAMPLE A
Formula and Illustration for Determining
the Net Investment Factor of a Subaccount
of Separate Account C**

$$\text{Net Investment Factor} = \frac{A + B}{C} - D$$

Where:

A = The Net Asset Value of a Fund share as of the end of the current Valuation Period. Assume.....	=	\$8.51000000
B = The per share amount of any dividend or capital gains distribution since the end of the immediately preceding Valuation Period. Assume.....	=	0
C = The Net Asset Value of a Fund share as of the end of the immediately preceding Valuation Period. Assume.....	=	\$8.39000000
D = The daily deduction for mortality and expense risks, which totals 1.0% on an annual basis. On a daily basis.....	=	.00002740
Then, the Net Investment Factor = $\frac{8.51000000 + 0}{8.39000000} - .00002740$		
		1.01427534

**EXAMPLE B
Formula and Illustration for Determining
Accumulation Unit Value of a Subaccount
of Separate Account C**

$$\text{Accumulation Unit Value} = A \times B$$

Where:

A = The Accumulation Unit Value for the immediately preceding Valuation Period. Assume.....	=	\$1.46328760
B = The Net Investment Factor for the current Valuation Period. Assume.....	=	1.01427534
Then, the Accumulation Unit Value = \$1.46328760 x 1.01427534		
		1.48417653

APPENDIX II

EXAMPLE A
Formula and Illustration for Determining
Death Benefit Payable Under
Annuity Option 4-Unit Refund Life Annuity
For Separate Account C (Tax Tamer I only)

Upon the death of the Annuitant, the designated Beneficiary under this option will receive under a Separate Account a lump sum death benefit of the then dollar value of a number of Annuity Units computed using the following formula:

$$\text{Annuity Units Payable} = \frac{A}{B} - (Cx D), \text{ if } \frac{A}{B} \text{ is greater than } Cx D$$

Where:

- A = The Net Accumulated Value applied on the Annuity Commencement Date to purchase the Variable Annuity.
 Assume = \$20,000.00
- B = The Annuity Unit Value at the Annuity Commencement Date.
 Assume = \$1.08353012
- C = The number of Annuity Units represented by each payment made.
 Assume = 116.61488844
- D = The total number of monthly Variable Annuity Payments made prior to the Annuitant's death.
 Assume = 30

Then the number of Annuity Units Payable:

$$\begin{aligned} & \frac{\$20,000.00}{\$1.08353012} - (116.61488844 \times 30) \\ &= 18,458.18554633 - 3,498.44665320 \\ &= 14,959.73889313 \end{aligned}$$

If the value of an Annuity Unit on the date of receipt of notification of death was \$1.12173107 then the amount of the death benefit under the Separate Account would be:

$$14,959.73889313 \times \$1.12173107 = \$16,780.80$$

APPENDIX III

EXAMPLE A

**Formula and Illustration for Determining
Annuity Unit Value of
Separate Account C**

Annuity Unit Value = A x B x C

Where:

- A = Annuity Unit Value of the immediately preceding Valuation Period.
Assume..... = \$1.10071211
- B = Net Investment Factor for the Valuation Period for which the Annuity
Unit is being calculated.
Assume..... = 1.00083530
- C = A factor to neutralize the assumed interest rate of 3½% built into
the Annuity Tables used.
Daily factor equals = 0.99990575

Then, the Annuity Value is:

$\$1.10071211 \times 1.00083530 \times 0.99990575 = \1.10152771

EXAMPLE B

**Formula and Illustration for Determining
Amount of First Monthly Variable Annuity Payment from
Separate Account C**

First Monthly Variable Annuity Payment = $\frac{A}{\$1,000} \times B$

Where:

- A = The Net Accumulated Value allocated to Separate Account C for the
Business Day on or immediately preceding the seventh day
before the Annuity Commencement Date.
Assume..... = \$20,000.00
- B = The Annuity purchase rate per \$1,000 based upon the option
selected, the sex and adjusted age of the Annuitant
according to the Annuity Tables contained in the Contract.
Assume..... = \$6.40

Then, the first Monthly Variable Payment = $\frac{\$20,000}{\$1,000} \times \$6.40 = \128.00

EXAMPLE C

**Formula and Illustration for Determining
the Number of Annuity Units for Separate Account C
Represented by Each Monthly Variable Annuity Payment**

$$\text{Number of Annuity Units} = \frac{A}{B}$$

Where:

A = The dollar amount of the first monthly Variable Annuity Payment.

Assume..... = \$128.00

B = The Annuity Unit Value for the Business Day on or immediately preceding the seventh day before the Annuity Commencement Date.

Assume..... = \$1.09763000

$$\text{Then, the number of Annuity Units} = \frac{\$128.00}{\$1.09763000} = 116.61488844$$

EXAMPLE D

**Formula and Illustration for Determining
the Amount of Second and Subsequent Monthly Variable
Annuity Payments From Separate Account C**

$$\text{Second Monthly Variable Annuity Payment} = A \times B$$

Where:

A = The Number of Annuity Units represented by each monthly Variable Annuity Payment.

Assume..... = 116.61488844

B = The Annuity Unit Value for the Business Day on or immediately preceding the seventh day before the date on which the second (or subsequent) Variable Annuity Payment is due.

Assume..... = \$1.11834234

$$\text{Then, the second monthly Variable Annuity Payment} = 116.61488844 \times \$1.11834234 = \$130.42$$

The above example was based upon the assumption of an increase in the Annuity Unit Value since the initial Variable Annuity Payment due to favorable investment results of the Separate Account and the Fund. If the investment results were less favorable, a decrease in the Annuity Unit Value and in the second monthly Variable Annuity Payment could result. Assume B above was \$1.08103230.

$$\text{Then, the second monthly Variable Annuity Payment} = 116.61488844 \times \$1.08103230 = \$126.06$$

Report of Independent Registered Public Accounting Firm

To the Board of Directors of Foresters Life Insurance and Annuity Company and Contract Owners of First Investors Life Variable Annuity Fund C:

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of the sub-accounts listed in the Appendix that comprise the First Investors Life Variable Annuity Fund C (the Separate Account) as of December 31, 2017, the related statements of operations for the year then ended and changes in net assets for the years or period listed in the Appendix, and the related notes including the financial highlights in Note 6 (collectively, the financial statements). In our opinion, the financial statements present fairly, in all material respects, the financial position of each sub-account as of December 31, 2017, the results of its operations for the year then ended, changes in its net assets for the years or period listed in the Appendix, and the financial highlights for each of the years or periods indicated in Note 6, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Separate Account's management. Our responsibility is to express an opinion on these financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Separate Account in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Such procedures also included confirmation of securities owned as of December 31, 2017, by correspondence with the transfer agent of the underlying mutual funds. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ KPMG LLP

We have served as the auditor of one or more of Foresters Life Insurance and Annuity Company's separate accounts since 2011.

**FIRST INVESTORS LIFE
VARIABLE ANNUITY FUND C**

Notes to Financial Statements

December 31, 2017

(1) Organization

First Investors Life Variable Annuity Fund C (Separate Account C), a unit investment trust registered under the Investment Company Act of 1940 (the 1940 Act), is a segregated investment account established by Foresters Life Insurance and Annuity Company (FLIAC), formerly First Investors Life Insurance Company, and exists in accordance with the regulations of the New York State Department of Financial Services. Assets of Separate Account C have been used to purchase shares of First Investors Life Series Funds (the Funds), an open-end diversified management investment company registered under the 1940 Act. The contract holder directs the deposits into the sub-accounts that comprise Separate Account C and bears the investment risk if the sub-accounts do not meet their stated investment objectives. The sub-accounts invest in the following underlying fund portfolios: Government Cash Management, Fund for Income, Growth & Income, Special Situations, International, Select Growth, Government, Investment Grade, Limited Duration High Quality Bond, Opportunity, Real Estate, Total Return, Balanced Income, Covered Call Strategy, and Equity Income.

The Covered Call Strategy sub-account was launched on May 2, 2016.

FLIAC offers two variable annuity contracts through Separate Account C, referred to as Tax Tamer I and First Choice Variable Deferred Annuity. Tax Tamer I is no longer available for sale.

(2) Significant Accounting Practices

(a) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(b) Fair Value Measurements

Investments are valued using Level 1 inputs, as defined within the fair value hierarchy established by the Financial Accounting Standards Board (FASB).

Management determines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management utilizes valuation techniques that maximize the use of observable inputs (Levels 1 and 2) and

**FIRST INVESTORS LIFE
VARIABLE ANNUITY FUND C**

Notes to Financial Statements

December 31, 2017

minimize the use of unobservable inputs (Level 3) within the fair value hierarchy established by the FASB. The three levels of inputs are described below:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities that Separate Account C has the ability to access.

Level 2 – observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – unobservable inputs for the asset and liability, to the extent relevant inputs are not available, representing Separate Account C's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The inputs methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

(c) Subsequent Events

Management has evaluated events subsequent to the balance sheet date through April 18, 2018, the date that the financial statements were available for issuance.

(d) Investments

Shares of the Funds held by each of the sub-accounts of Separate Account C are valued at net asset value per share of such Funds, which value its investment securities at fair value on a daily basis. All distributions received from the Funds are reinvested to purchase additional shares of the Funds at net asset value. Investment transactions are accounted for on a trade date basis and average cost is the basis followed in determining the cost of investments sold for financial statement purposes.

(e) Investment Income

Investment income consists of dividends declared by the Funds and is recognized on the ex-dividend date. Realized gains and losses are recorded on a trade date basis. Reinvested realized gain distributions are recorded when received. Average cost is used as the basis of investments held and sold. The change in the value of the Funds is recorded as unrealized appreciation or depreciation and is included in the accompanying statement of operations.

Notes to Financial Statements

December 31, 2017

(f) Federal Income Taxes

Separate Account C is not taxed separately because its operations are part of the total operations of FLIAC, which is taxed as a life insurance company under the Internal Revenue Code. Separate Account C is not taxed as a regulated investment company under Subchapter M of the Code. Under existing Federal income tax law, no taxes are payable on the investment income or on the capital gains of Separate Account C.

(3) Investments

The fair value of investments in each of the sub-accounts of the Separate Account at December 31, 2017 was determined by management using quoted market prices which, is equal to the net asset value of the underlying investments in the Funds. Management determined that these investments are valued using Level 1 inputs since there is no restriction in the redemption of these investments and sufficient transaction volume exists. In addition, there were no transfers between the different Levels established in the FASB's fair value hierarchy during the year ended December 31, 2017.

Investments consist of the following at December 31, 2017:

	Shares	Net asset value	Fair value	Cost
First Investors Life Series Fund:				
Government Cash Management	3,168,654	\$ 1.00	\$ 3,168,654	\$ 3,168,654

(5) Mortality and Expense Risks and Deductions

In consideration for its assumption of the mortality and expense risks connected with the Variable Annuity Contracts, FLIAC deducts an amount equal on an annual basis to 1.00% of the daily net asset value of Separate Account C. This deduction is assessed through a reduction of unit values. An additional administrative charge of \$7.50 may be deducted annually by FLIAC from the Accumulated Value of Deferred Annuity Contracts, which have an Accumulated Value of less than \$1,500 due to partial surrenders and would be assessed through a redemption of units. There was no deduction under this provision during 2017 and 2016.

An annual contract maintenance charge of \$35 is deducted from the accumulated value of the contract on the last business day of the contract year or on the date of surrender of the contract, if earlier and is assessed through the redemption of units.

The Variable Annuity Contracts are sold without an initial sales charge, but at the time of a full or partial surrender of the Contract, they may be subject to a contingent deferred sales charge (CDSC) of 0% to 8% of the value of the Accumulation Units surrendered.

Notes to Financial Statements

December 31, 2017

1. These amounts represent the dividends, excluding distributions of capital gains, received by the sub-account from the underlying mutual fund, net of management fees assessed by the fund manager, divided by the average net assets. These ratios exclude those expenses, such as mortality and expense charges, that are assessed against contract owner accounts either through reductions in unit values or redemption of units. The recognition of investment income by the sub-account is affected by the timing of the declaration of dividends by the underlying fund in which the sub-account invests.
2. These amounts represent the annualized contract expenses of the separate account, consisting primarily of mortality and expense charges, for the periods indicated. These ratios include only those expenses that result in a direct reduction to unit values. Charges made directly to contract owner accounts through redemption of units and expenses of the underlying fund have been excluded.
3. These amounts represent the total return for the periods indicated, including changes in value of the underlying fund, and expenses assessed through the reduction of unit values. These ratios do not include any expenses assessed through the redemption of units.
4. The Limited Duration High Quality Bond sub-account was launched on July 1, 2014. The total return for the Limited Duration High Quality Bond sub-account for 2014 was calculated for the period July 1, 2014 to December 31, 2014. The Real Estate and the Balanced Income sub-accounts were launched on May 1, 2015 and November 2, 2015, respectively. The total return for the Real Estate and the Balanced Income sub-accounts for 2015 were calculated for the period May 1, 2015 to December 31, 2015 and November 2, 2015 to December 31, 2015, respectively. The Target Maturity 2015 sub-account was closed on December 15, 2015. The total return for the Target Maturity 2015 sub-account for 2015 was calculated for the period January 1, 2015 to December 14, 2015. The Covered Call Strategy sub-account was launched on May 2, 2016. The total return for the Covered Call Strategy sub-account was calculated for the period May 2, 2016 to December 31, 2016.

Independent Auditors' Report

The Board of Directors
Foresters Life Insurance and Annuity Company:

We have audited the accompanying financial statements of Foresters Life Insurance and Annuity Company, which comprise the statutory statements of admitted assets, liabilities and capital and surplus as of December 31, 2017 and 2016, and the related statutory statements of income and changes in capital and surplus, and cash flows for each of the years in the three-year period ended December 31, 2017, and the related notes to the statutory financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with statutory accounting practices prescribed or permitted by the New York State Department of Financial Services. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 2 to the financial statements, the financial statements are prepared by Foresters Life Insurance and Annuity Company using statutory accounting practices prescribed or permitted by the New York State Department of Financial Services, which is a basis of accounting other than U.S. generally accepted accounting principles. Accordingly, the financial statements are not intended to be presented in accordance with U.S. generally accepted accounting principles.

The effects on the financial statements of the variances between the statutory accounting practices described in Note 2 and U.S. generally accepted accounting principles, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the variances between statutory accounting practices and U.S. generally accepted accounting principles discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles paragraph, the financial statements referred to above do not present fairly, in accordance with U.S. generally accepted accounting principles, the financial position of Foresters Life Insurance and Annuity Company as of December 31, 2017 and 2016, or the results of its operations or its cash flows for each of the years in the three-year period ended December 31, 2017.

Opinion on Statutory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities and capital and surplus of Foresters Life Insurance and Annuity Company as of December 31, 2017 and 2016, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2017, in accordance with statutory accounting practices prescribed or permitted by the New York State Department of Financial Services described in Note 2.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information included in the Supplemental Schedule Summary of Investments - Other than Investments in Related Parties, Supplemental Insurance Information schedule, and Supplemental Schedule - Reinsurance, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by Regulation S-X Rule 7-05 of the Securities and Exchange Commission. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

(1) Nature of Operations

Foresters Life Insurance and Annuity Company (the "Company") is a wholly-owned subsidiary of Foresters Financial Holding Company, Inc. ("FFHC"). The Company predominately writes variable and fixed annuity and variable life insurance products along with traditional life insurance and other accident and health insurance. In addition, the Company sponsors segregated investment trusts registered under the Investment Company Act of 1940. The principal affiliates of the Company are: Foresters Financial Services, Inc. ("Broker-Dealer"), Foresters Investment Management Company, Inc. ("Mutual Fund Management Company"), Foresters Investor Services, Inc. ("Transfer Agent"), and Foresters Advisory Services, LLC. FFHC is a wholly-owned subsidiary of The Independent Order of Foresters ("Foresters").

(2) Basis of Presentation

The financial statements of the Company are presented on the basis of accounting practices prescribed or permitted by the New York State Department of Financial Services ("NYDFS"). The NYDFS recognizes only statutory accounting practices prescribed or permitted by the state of New York for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the New York Insurance Law. The State of New York has adopted the National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual.

This basis of presentation differs from U.S. generally accepted accounting principles ("GAAP") in that:

- (a) Life insurance policy reserves are computed on the statutory valuation basis using the 1958, 1980 or 2001 CSO Mortality Table with interest rates from 2.50% to 5.25% rather than according to the Company's estimates of mortality, investment yields, withdrawals and other benefits and expenses. The fixed deferred annuity is valued using CARVM at 3.50% – 5% and variable annuities are valued using VACARVM at 3.75% to 5.25%. On both a statutory and GAAP basis, the reserve held for old deferred annuities is equal to the funds accumulated at a current rate of 4% per annum;
- (b) certain expenditures, principally for furniture and equipment and agents' debit balances, are not admissible and are therefore charged to surplus rather than recognized as assets;

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

- (c) commissions and other costs of acquiring new business are expensed as incurred rather than recognized as deferred acquisition costs and amortized over the premium paying period of policies and contracts;
- (d) income tax effects of temporary differences are provided to the extent that the temporary differences will be realized within three years (admitted deferred tax assets) and are recognized in surplus;
- (e) the statutory asset valuation and interest maintenance reserves are recognized as liabilities;
- (f) On investment type contracts, the entire amount received from contract holders is recognized as revenue rather than just the portion of the payment deemed to be assessments against policyholder account balances;
- (g) investments in fixed maturities that are deemed to be available-for-sale for GAAP are recorded at amortized cost rather than estimated fair value; and
- (h) The statutory statements of cash flows do not classify cash flows in a manner which is consistent with GAAP. A reconciliation of net income to net cash provided by operating activities is not provided.

The effects of these variances on the accompanying statutory financial statements has not been determined, but are presumed to be material.

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

(3) Other Significant Accounting Practices

(a) Cash, Cash Equivalents and Short-term Investments

Cash and cash equivalents include investments with original maturities of three months or less and money market mutual funds. The carrying amounts for cash and cash equivalents approximate their fair values. Short-term investments include investments with original maturities of one year or less and are carried at amortized cost.

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

(b) Bonds

Bonds are reported at amortized cost. Amortization of premiums and accretion of discounts on bonds are recognized using the scientific method that approximates level yield. Gains and losses on sales of investments are determined using the specific identification method.

The fair values for bonds presented in the Statements of Admitted Assets, Liabilities and Capital and Surplus is based on quoted market prices, where available, or is estimated using values from independent pricing services.

(c) Fair Value Measurements

Management determines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management utilizes valuation techniques that maximize the use of observable inputs (Levels 1 and 2) and minimize the use of unobservable inputs (Level 3) within the fair value hierarchy established by the Financial Accounting Standards Board ("FASB"). Financial assets and liabilities carried at fair value are classified and disclosed in one of the following three categories:

- Level 1: Fair value measurements using unadjusted quoted market prices in active markets for identical, unrestricted assets or liabilities.
- Level 2: Fair value measurements using correlation with (directly or indirectly) observable market based inputs, unobservable inputs that are corroborated by market data, or quoted prices in markets that are not active. These models are primarily standard models that consider various assumptions including time value, yield curve, and other relevant economic measures. Substantially all of these assumptions are observable in the marketplace, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace.
- Level 3: Fair value measurements using significant inputs that are not readily observable in the market and are based on internally developed models or methodologies utilizing significant inputs that are generally less readily observable.

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

(d) Impairment of Invested Assets

Management regularly reviews fixed maturity securities to evaluate unrealized losses for other-than-temporary declines in the fair value of these securities. Management considers various factors in assessing impairments, including but not limited to, the financial condition and near term prospects of the issuer, specific adverse conditions affecting an industry or region, a significant and prolonged decline in fair value below the amortized cost of the asset, bankruptcy or default of the issuer, and delinquency in payments of interest or principal.

Management considers the following factors in the evaluation of whether a noninterest related decline in value is other than temporary: (a) the Company's near-term intent to sell; (b) the Company's contractual and regulatory obligations; and (c) the Company's ability and intent not to sell the investment until anticipated recovery of the cost of the investment. In addition, management considers other qualitative and quantitative factors in determining the existence of possible other than temporary impairments including, but not limited to, unrealized loss trend analysis and significant short-term changes in value.

The day to day management of the investment portfolio is performed by investment managers, who may, at a given point in time, believe that the preferred course of action is to hold securities with unrealized losses that are considered temporary until such losses are recovered, the dynamic nature of portfolio management may result in a subsequent decision to sell the security and realize the loss based upon a change in the market and other factors described above. Investment managers maintain a watchlist that identifies rating agency downgrades of securities as well as any potential investment valuation issues at the end of each quarter.

(e) Leasehold Improvements and Equipment

Leasehold improvements and equipment are recorded as cost. These assets are treated as non-admitted assets with changes in the balance of these assets going through the change in nonadmitted assets, a component of capital and surplus.

Depreciation is recorded in net income on the statement of statutory income and is calculated on a straight-line basis over the estimated useful life of the asset, not to exceed 5 years, or the remaining term of the lease.

Depreciation of equipment of \$106,922, \$102,961, and \$89,679 was included in net income for 2017, 2016 and 2015, respectively. Depreciation of leasehold

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

improvements of \$2,247, \$2,247, and \$1,872 was included in net income for 2017, 2016 and 2015, respectively.

(f) Policy loans

Policy loans are stated at the unpaid balance due, which approximates fair value, since loans on policies have no defined maturity and reduce amounts payable at death or surrender. The excess of the unpaid balance of the policy loan that exceeds the cash surrender value is nonadmitted.

(g) Interest Maintenance Reserve

The Company maintains an interest maintenance reserve ("IMR") to stabilize net income against fluctuations in interest rates. After-tax realized capital gains (losses), which result from changes in the overall level of interest rates for all types of fixed-income investments and interest-related hedging activities, are deferred into the IMR and amortized into revenue using the grouped amortization method. The IMR is included in other liabilities or if negative, is nonadmitted.

(h) Asset Valuation Reserve

The Company establishes an Asset Valuation Reserve ("AVR") to offset potential credit-related investment losses. Investments are assigned a NAIC rating which is used in the AVR computation.

(i) Recognition of Revenue and Related Expenses

Premiums are reported as earned when due. Commissions, benefits and expenses are recognized when incurred rather than amortized over the life of the contracts.

(j) Annuities

Annuity considerations are recognized as revenue when received. The carrying value of fixed annuities reserves are equal to the policyholder account balances, which represent net premiums, received plus accumulated interest.

(k) Policyholder Dividends

The amount of dividends to be paid to policyholders is determined annually by the Company's Board of Directors. The aggregate amount of policyholders' dividends is related to actual interest, mortality, morbidity, and expense experience for the year, and judgment as to the appropriate level of statutory surplus to be retained by the Company.

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

(l) Business Risks and Uncertainties

The Company's investments are primarily comprised of both short term and long term fixed maturity securities. Significant changes in prevailing interest rates and geographic conditions may adversely affect the timing and amount of cash flows on such investments and their related values. A significant decline in the fair values of these investments could have an adverse effect on the Company's ability to meet obligations including policyholder benefits.

Premiums and annuity considerations received from the Company's variable annuity and variable life products comprise approximately 34% in both 2017 and 2016, of the Company's total premiums and annuity considerations received. The investment risk on this business is borne by the contract holder and is invested in the sub-account of the related separate account as directed by the contract holder.

(m) Separate Accounts

Separate account assets and the related liabilities represent segregated variable annuity and variable life contracts maintained in accounts to meet the specific investment objectives of Contractholders who bear the investment risk. The assets are carried at fair value and are reported as summary total separate account assets with an equivalent summary total reported for liabilities. All investment income (including realized and unrealized gains and losses on investments held in these accounts) accrues directly to the Contractholders and therefore does not affect the net income of the Company.

(n) Income Taxes

The Company is included in the consolidated federal returns and certain state returns of the Parent, along with other wholly-owned subsidiaries of the Parent. The Parent calculates and allocates the applicable federal taxes (benefits) and related income tax payments and refunds to each subsidiary separately for financial reporting purposes. The provision for federal income taxes is determined on a separate company basis in accordance with a written tax sharing agreement between the Company and its parent.

The Company recognizes deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial reporting basis and tax basis of assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be recovered or settled and the effect of a change in tax rates is recognized in the

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

period. A valuation allowance is recorded against deferred tax assets if management determines it is more likely than not, that such assets will not be realized. The tax effects of temporary differences that reverse within three years are treated as admitted assets, subject to a maximum of 15% of surplus.

Tax benefits from uncertain tax positions are recognized in the financial statements if management determines it is "more-likely-than-not" that the positions are sustainable, based on their technical merits. The term "more-likely-than-not" contemplates a likelihood of more than 50 percent and the determination of whether or not a tax position has met this recognition threshold depends on the facts, circumstances, and information available at the reporting date. If management cannot conclude this recognition threshold is met, none of the tax benefit provided by the position is recognized in the financial statements. Income tax liabilities for tax uncertainties are carried by the Company until such time that the statute of limitations or period under audit for the jurisdiction is settled.

(4) Investments

Investment income for the years indicated consists of the following:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
Interest on fixed maturities	\$ 30,309,245	\$ 26,008,677	\$ 21,498,422
Interest on short term investments	345,234	47,676	8,289
Interest on policy loans	<u>6,099,103</u>	<u>5,857,123</u>	<u>5,673,511</u>
Total investment income	36,753,582	31,913,476	27,180,222
Investment expense	<u>1,466,874</u>	<u>1,138,285</u>	<u>1,099,422</u>
Net investment income	<u>\$ 35,286,708</u>	<u>\$ 30,775,191</u>	<u>\$ 26,080,800</u>

No accrued investment income was excluded as non-admitted.

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

The amortized cost and estimated fair value of bonds at December 31, 2017, and 2016 are as follows:

	<u>Amortized cost</u>	<u>Gross unrealized gains</u>	<u>Gross unrealized losses</u>	<u>Estimated fair value</u>
December 31, 2017:				
U.S. Treasury securities and obligations of U.S. Gov't corps and agencies	\$ 6,009,610	\$ 185,633	\$ 9,349	\$ 6,185,894
Debt securities issued by states of the U.S.	226,499,717	8,180,247	944,107	233,735,857
Corporate debt securities	<u>564,114,378</u>	<u>18,274,394</u>	<u>588,955</u>	<u>581,799,817</u>
	<u>\$ 796,623,705</u>	<u>\$ 26,640,274</u>	<u>\$ 1,542,411</u>	<u>\$ 821,721,568</u>

	<u>Amortized cost</u>	<u>Gross unrealized gains</u>	<u>Gross unrealized losses</u>	<u>Estimated fair value</u>
December 31, 2016:				
U.S. Treasury securities and obligations of U.S. Gov't corps and agencies	\$ 7,436,107	\$ 395,042	\$ 6,073	\$ 7,825,076
Debt securities issued by states of the U.S.	175,355,672	3,992,943	2,926,991	176,421,624
Corporate debt securities	<u>494,957,573</u>	<u>12,955,668</u>	<u>3,036,095</u>	<u>504,877,146</u>
	<u>\$ 677,749,352</u>	<u>\$ 17,343,653</u>	<u>\$ 5,969,159</u>	<u>\$ 689,123,846</u>

Securities in unrealized loss positions (fair value is less than amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss are:

	December 31, 2017		December 31, 2016	
	<u>Fair Value</u>	<u>Unrealized Loss</u>	<u>Fair Value</u>	<u>Unrealized Loss</u>
Less than 12 months	\$ 63,025,802	\$ 238,674	\$ 157,713,750	\$ 5,008,306
12 months or more	<u>56,108,979</u>	<u>1,303,737</u>	<u>37,463,535</u>	<u>960,853</u>
	<u>\$ 119,134,781</u>	<u>\$ 1,542,411</u>	<u>\$ 195,177,285</u>	<u>\$ 5,969,159</u>

Management considers the decline in fair values of the above securities to be interest related. Management intends to hold these securities until recovery or contractual maturity and therefore, no other-than-temporary impairment has been recognized.

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

The amortized cost and estimated fair value of bonds at December 31, 2017, by contractual maturity, are shown below. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	<u>Amortized cost</u>	<u>Estimated fair value</u>
Due in one year or less	\$ 38,597,814	\$ 38,978,867
Due after one year through five years	193,074,550	197,703,195
Due after five years through ten years	241,731,944	245,707,682
Due after ten years	315,235,896	331,109,824
Loan backed securities	7,983,501	8,222,000
	<u>\$ 796,623,705</u>	<u>\$ 821,721,568</u>

Proceeds from sales of investments in bonds were \$78,894,024, \$68,104,692, and \$48,439,000 in 2017, 2016 and 2015, respectively. Gross gains of \$614,811 and gross losses of \$1,002,697 were realized on those sales in 2017. Gross gains of \$895,224 and gross losses of \$801,262 were realized on those sales in 2016. Gross gains of \$880,023 and gross losses of \$961,049 were realized on those sales in 2015. Realized gains (losses) transferred to the IMR were (\$256,005) in 2017, \$62,008 in 2016, and (\$53,604) in 2015.

(5) Fair Value of Financial Instruments

The following table presents the fair value of all financial assets, classified by the fair value hierarchy:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total fair value</u>	<u>Total carrying value</u>
December 31, 2017					
Bonds	\$ -	\$ 821,721,568	\$ -	\$ 821,721,568	\$ 796,623,705
Cash, cash equivalents and short-term investments	48,890,262	-	-	48,890,262	48,890,262
Separate account assets	1,492,359,315	-	-	1,492,359,315	1,492,359,315
	<u>\$ 1,541,249,577</u>	<u>\$ 821,721,568</u>	<u>\$ -</u>	<u>\$ 2,362,971,145</u>	<u>\$ 2,337,873,282</u>
December 31, 2016					
Bonds	\$ -	\$ 689,123,846	\$ -	\$ 689,123,846	\$ 677,749,352
Cash, cash equivalents and short-term investments	40,822,681	-	-	40,822,681	40,822,681
Separate account assets	1,302,277,133	-	-	1,302,277,133	1,302,277,133
	<u>\$ 1,343,099,814</u>	<u>\$ 689,123,846</u>	<u>\$ -</u>	<u>\$ 2,032,223,660</u>	<u>\$ 2,020,849,166</u>

Separate account assets disclosed in the table above are the only assets carried at fair value. There were no transfers between levels during 2017 and 2016.

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

(6) Retirement Plans

The Company participates in a qualified, noncontributory profit sharing plan sponsored by FFHC, for the benefit of its employees and those of other wholly-owned subsidiaries of its parent. The Company has no legal obligation for benefits under this plan. Foresters Financial Holding Company, Inc. allocates amounts to the Company based on salary ratios. The Plan provides for retirement benefits based upon earnings. Vesting of benefits is based upon years of service. For the years ended December 31, 2017, 2016 and 2015, the Company charged operations \$52,327, \$73,765, and \$98,177, respectively, for its portion of the contribution.

In addition, the Company participates in a 401(K) savings plan covering all of its eligible employees and those of other wholly-owned subsidiaries of its parent whereby employees may voluntarily contribute a percentage of their compensation with the Company matching a portion of the contributions of certain employees. For the years ended December 31, 2017, 2016 and 2015, contributions to this plan were \$21,225, \$19,612, and \$18,734, respectively.

(7) Reinsurance

The Company reinsures a portion of its risk with other insurance companies and reserves are reduced by the amount of reserves for such reinsured risks. The Company is liable for any obligations, which any reinsurance company may be unable to meet. Information with respect to reinsurance ceded by the Company is as follows:

	2017	2016	2015
Direct life insurance premiums	\$ 69,894,727	\$ 68,913,066	\$ 70,531,837
Life insurance premiums ceded	<u>6,800,567</u>	<u>6,211,032</u>	<u>6,657,593</u>
Net life insurance premiums	<u>\$ 63,094,160</u>	<u>\$ 62,702,034</u>	<u>\$ 63,874,244</u>
Life insurance reserves ceded	<u>\$ 19,383,574</u>	<u>\$ 19,566,561</u>	<u>\$ 19,512,024</u>
Direct accident and health premiums	\$ 1,834	\$ 2,208	\$ 2,921
Ceded accident and health premiums	<u>-</u>	<u>-</u>	<u>-</u>
Net accident and health premiums	<u>\$ 1,834</u>	<u>\$ 2,208</u>	<u>\$ 2,921</u>

The Company's maximum retention on any one life is \$250,000. The Company had reinsured 54.0% and 56.0% of its net life insurance in force at December 31, 2017

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

and 2016, respectively. The Company does not (1) have any reinsurance agreements in effect which can be canceled unilaterally for reasons other than for nonpayment of premiums; (2) transact with reinsurers controlled directly or indirectly by the Company or affiliated persons or chartered in a country other than the United States; or (3) have any reinsurance agreements where the amount of losses may result in a payment to the reinsurer which exceeds the total direct premiums collected under such insurance policies. During 2017, 2016 and 2015, the Company did not write off any amounts receivable from reinsurers and no reinsurance contracts were commuted. None of the credit ratings of the Company's reinsurers were downgraded during 2017, 2016 and 2015.

(8) Contingent Liabilities

The Company is subject to certain claims and lawsuits arising in the ordinary course of business. In the opinion of management, all such claims currently pending will not have a material adverse effect on the financial position of the Company or its results of operations.

(9) Related Party Transactions

The Company and certain affiliates, under various cost sharing allocation agreements, share office space, data processing and other facilities and management personnel. Charges for these services are based upon the Company's proportionate share of: space occupied, usage of data processing and other facilities and time allocated to management. During the years ended December 31, 2017, 2016 and 2015, the Company incurred approximately \$3,450,868, \$3,331,014, and \$3,006,520, respectively, for these services. The Company paid an affiliate \$17,886,446, \$20,612,341, and \$18,643,852 during 2017, 2016 and 2015, respectively for commissions relating to the sale of its products. In addition, the Company incurred \$525,000 annually for management fees paid to Foresters.

(10) Capital and Surplus

- (a) Participating business represented 1.1% and 1.2% of individual life insurance in force at December 31, 2017 and 2016.

The portion of earnings of participating policies that can inure to the benefit of shareholders is limited to the larger of 10% of such earnings or \$0.50 per thousand dollars of participating insurance in force. Earnings in excess of that limit must be excluded from capital and surplus by a charge against operations. No such charge has been made, since participating business has operated at a loss to date on a statutory basis.

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

- (b) The maximum amount of dividends which can be paid by New York State insurance companies to shareholders is subject to restrictions relating to statutory unassigned surplus. New York State Insurance Law prohibits the payment of dividends to stockholders from any source other than the statutory unassigned surplus. The amount of said surplus was \$54,407,414 and \$51,085,911 at December 31, 2017 and 2016, respectively, and was earned partly by the participating account and partly by the nonparticipating account. Distributions are limited to prescribed percentages of policyholders' surplus as of the beginning of the current year and, in some instances, require pre-approval by the NYDFS.

During 2017 and 2016 the Company paid ordinary dividends of \$5,100,000.

- (c) The NAIC has developed risk based capital formulas to be applied to all insurance companies. These formulas calculate a minimum required statutory net worth, based on the perceived degree of certain risks, such as asset, credit, interest rate, underwriting and other business risks inherent in an individual company's operations. Any insurance company that does not meet threshold risk based capital levels ultimately will be subject to regulatory proceedings. The Company was in excess of the minimum risk based capital as of December 31, 2017 and 2016.
- (d) The portion of unassigned surplus represented or (reduced by) each item below is as follows:

	<u>2017</u>	<u>2016</u>
Nonadmitted assets	\$ (9,154,385)	\$ (9,316,685)
Asset valuation reserve	(4,935,223)	(4,298,814)
Deferred tax assets	6,610,905	10,390,133

(11) Life and Annuities Reserves

- (a) The Company waives the deduction of the deferred fractional premiums upon the death of the insured and returns a pro-rata portion of premiums for any period beyond the end of the policy month in which the death occurred. Surrender values are not promised in excess of the legally computed reserves.
- (b) For policies issued subject to an extra premium, a reserve based on special tables prepared by the New York Department of Financial Services was included in the statutory financial statements.

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

- (c) As of December 31, 2017 the Company has \$151,053,603 of insurance in force for which the gross premiums are less than the net premiums according to the standard valuation set by the State of New York.
- (d) Tabular less Actual Reserves Released, and Tabular Cost has been determined by formula.
- (e) The Tabular interest on funds not involving life contingencies has been determined by formula. Tabular interest is equal to the mean reserves at year end plus payments incurred during the year less mean reserves at the prior year end, income earned during the year and other increases.
- (f) The Company holds additional reserves for substandard policies on behalf of those policyholders assigned lower underwriting classifications, such as those deemed to be more serious mortality risks.
- (g) There are no significant other increases (net).

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

(13) Premium and Annuity Consideration Deferred and Uncollected

Deferred and uncollected life insurance premiums and annuity consideration at December 31, 2017 were:

	Gross	Net	Loading
Type:			
Ordinary new business	\$ 98,269	\$ 80,380	\$ 17,889
Ordinary renewal	3,057,443	5,003,828	(1,946,385)
Total	\$ 3,155,712	\$ 5,084,208	\$ (1,928,496)

Deferred and uncollected life insurance premiums and annuity consideration at December 31, 2016 were:

	Gross	Net	Loading
Type:			
Ordinary new business	\$ 297,771	\$ 232,600	\$ 65,171
Ordinary renewal	2,697,665	4,358,136	(1,660,471)
Total	\$ 2,995,436	\$ 4,590,736	\$ (1,595,300)

(14) Separate Accounts

General Nature and Characteristics

The Company has two separate accounts which fund limited pay variable life insurance policies, single premium variable life policies, and flexible premium variable life policies and three separate accounts which fund deferred variable annuity contracts. For all separate accounts, the net investment experience of the separate account is credited directly to the policyholder and can be positive or negative.

Two of the variable annuities provide an incidental death benefit of the greater of the account value or premiums paid. The third provides an incidental death benefit equal to the greater of the account value, the premiums paid or the account value on specified anniversaries. Insurance contract liabilities for incidental death benefits are established in the general account. The account balance of contracts with guarantees totaled approximately \$630,000,000 and \$564,000,000 and was held in separate accounts at December 31, 2017 and 2016, respectively. The net amount at risk associated with these guarantees was approximately \$340,000 and \$487,000 at December 31, 2017 and 2016, respectively.

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

The three variable life policies are a fixed premium product, a single premium product with a minimum guaranteed death benefit, and a flexible premium product.

The contracts have a policy loan provision. Loan funds are credited with a guaranteed interest rate of 4% and are held in the general account.

The following table presents separate account premiums and considerations for the year ended December 31, 2017 and separate account reserves at December 31, 2017.

	<u>Variable life</u>	<u>Variable Annuities</u>	<u>Total</u>
Premiums and considerations	\$ 36,503,271	\$ 25,202,905	\$ 61,706,176
Reserves at December 31, 2017:			
With assets at market value	\$ 838,886,268	\$ 623,654,777	\$ 1,462,541,045
Subject to discretionary withdrawal at market value	\$ 838,886,268	\$ 623,654,777	\$ 1,462,541,045

Reconciliation of net transfers to (from) separate accounts and amounts recognized in the statutory statement of income are as follows:

	<u>2017</u>	<u>2016</u>
Transfers to separate accounts as contained in the annual statement of the separate accounts	\$ 61,706,176	\$ 62,620,810
Transfers from separate accounts as contained in the annual statement of the separate accounts	<u>102,650,176</u>	<u>96,437,413</u>
	(40,944,000)	(33,816,603)
Reconciling items:		
Other	<u>111,826</u>	<u>(19,251)</u>
	<u>\$ (40,832,174)</u>	<u>\$ (33,835,854)</u>

(15) Federal Income Taxes

On December 22, 2017, the President signed the "Tax Cuts and Jobs Act" (H.R. 1) into law. This represents the first major overhaul of the federal income tax in more than 30 years. Among other effects, the bill lowers the corporate tax rate from 35% to 21% beginning in 2018. The change in the corporate tax rate is presumed to be permanent; as such we adjusted the value of our deferred tax items. The adjustment in the value of deferred tax items resulted in a decrease in surplus of approximately \$4.4 million from this rate change.

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

The "Tax Cuts and Jobs Act" also impacted the computation of life insurance tax reserves. The Act limits life reserves for tax purposes to the greater of net surrender value or 92.81% of NAIC's required reserves. Previously, for life and annuity contracts, the tax reserve was the greater of the contract's net surrender value (if any) or federally prescribed reserve. Management estimates an \$18.1 million difference in the amount of the new tax basis reserve, which has been recognized as an additional tax asset with an offsetting deferred tax liability. The estimated transition adjustment amount is amortized on a straight-line basis over each of the eight taxable years from 2018-2025. The transitional adjustment is a provisional estimate as the Company does not have the information available in appropriate detail to analyze and calculate the amount required under the change in methodology. The ultimate impact may differ from the provisional amount and the final amount will be determined within the measurement period.

The Company's Parent files consolidated federal and certain state income tax returns which include certain other wholly-owned subsidiaries of the Parent (listed in footnote 1). The provision for federal income taxes is determined on a separate company basis in accordance with a written tax sharing agreement between the Company and its parent. Under the Internal Revenue Code, revised by the Tax Cuts and Jobs Act, life insurance entities are not permitted to carryback ordinary losses. As such, admittance of ordinary deferred tax assets for life entities will be limited to paragraph 11.b. and 11.c. Tax years of 2014 through 2016 are subject to federal, state or local examination by taxing authorities.

The net deferred tax asset/(liability) at December 31, 2017 and 2016, and the change from the prior year are comprised of the following components:

	2017	2016	Change
	<u>Ordinary</u>	<u>Ordinary</u>	<u>Ordinary</u>
Total gross deferred tax assets	\$ 10,579,000	\$ 10,617,000	\$ (38,000)
Statutory Valuation Allowance	-	-	-
Adjusted gross deferred tax assets	<u>10,579,000</u>	<u>10,617,000</u>	<u>(38,000)</u>
Deferred tax assets nonadmitted	<u>(3,876,905)</u>	<u>(5,826,133)</u>	<u>1,949,228</u>
Subtotal net admitted deferred tax assets	6,702,095	4,790,867	1,911,228
Deferred tax liabilities	<u>(3,968,095)</u>	<u>(226,867)</u>	<u>(3,741,228)</u>
Net admitted deferred tax assets	<u>\$ 2,734,000</u>	<u>\$ 4,564,000</u>	<u>\$ (1,830,000)</u>

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY
Notes to Statutory Financial Statements
December 31, 2017, 2016 and 2015
(in US Dollars)

The amount of deferred tax assets admitted at December 31, 2017 and 2016 and changes thereon are as follows:

	<u>2017</u>	<u>2016</u>	<u>Change</u>
	<u>Ordinary</u>	<u>Ordinary</u>	<u>Ordinary</u>
Federal income taxes paid in prior years			
recoverable through loss carrybacks (11.a.)	\$ -	\$ 4,564,000	\$ (4,564,000)
Admitted under paragraph (11.b.)	2,734,000	-	2,734,000
Adjusted gross DTAs offset by gross DTLs (11.c.)	<u>3,968,095</u>	<u>226,867</u>	<u>3,741,228</u>
Deferred tax assets admitted as the result of application of SSAP No. 101	<u>\$ 6,702,095</u>	<u>\$ 4,790,867</u>	<u>\$ 1,911,228</u>

The ratios used for the threshold limitation for 11.b. above are as follows:

	<u>2017</u>	<u>2016</u>
Ratio percentage used to determine recovery period and threshold limitation amount	788%	749%
Amount of adjusted capital and surplus used to determine recovery period threshold limitation	\$ 66,154,217	\$ 60,257,167

Tax planning strategies did not have an effect on the Company's net admitted deferred tax assets. In addition, there are no temporary differences for which deferred tax liabilities have not been recognized.

The Company did not have any deferred tax assets or liabilities that were classified as capital.

FORESTERS LIFE INSURANCE AND ANNUITY COMPANY

Notes to Statutory Financial Statements

December 31, 2017, 2016 and 2015

(in US Dollars)

Deferred tax assets and deferred tax liabilities comprise the following:

	<u>2017</u>	<u>2016</u>	<u>Change</u>
Deferred tax assets:			
Policyholder dividend provision	\$ 215,000	\$ 281,000	\$ (66,000)
Deferred acquisition costs	3,399,000	5,621,000	(2,222,000)
