E: About claiming your benefits and notifying us of changes

1. Request a claim form by contacting us. See contact details on back of the *Plan* Document.
2. Complete the claim form we send to *you* and return to us.
3. Supply any medical or other evidence we request from *you*.

In order to prevent any unnecessary delay in payment of benefit, please notify us as soon as *you* believe that *you* may wish to claim.

Please note that claims for waiver of premium cannot be backdated before the date *you* notified us.

E2: Evidence we require before we can pay the benefit

Before we can pay any claim we will require:

- this *Plan* Document and *Schedule* together with any endorsements issued in connection with the *Plan*. However, we will not request this for waiver of premium claims,
- evidence of the *life insured's* age.

In addition we will require the following:

for death claims – evidence of death (for example, original UK death certificate).

for critical illness and terminal illness claims – satisfactory medical evidence to support the claim. We will decide whether satisfactory evidence has been received after consultation with our Chief or Consulting Medical Officer. As a minimum we will require confirmation of the diagnosis from our Chief or Consulting Medical Officer or from a specialist consultant holding such an appointment at a major hospital within the United Kingdom, Australia, Canada, the European Union, New Zealand, Switzerland or the United States of America. We may also require the *life insured* to be examined by a medical examiner appointed by us or to undergo medical tests at our expense.

for waiver of premium claims – evidence:

- of the date that the *incapacity* started, (for example a letter from the *life insured's* employer or doctor),
- that the *life insured* remains *incapacitated* (for example a disability claim assessment form completed by the *life insured's* doctor).

While Waiver Of Premium Benefit is being paid we may ask from time to time for evidence that the *life insured* remains *incapacitated*. This may include a medical examination at our expense. You will be responsible for the cost of producing any other evidence which we request.

We reserve the right to stop paying a claim, or not to pay it, if you do not provide any evidence we ask for, or if at any time you provide information which is inaccurate or incomplete.

E3: Who we pay the benefit to

We will pay the benefit to the person legally entitled to receive it. Payment will be made only after we have received satisfactory evidence of legal entitlement to the benefit.

If the *Plan* has been assigned we will need to see the original Deed of Assignment before we can make payment to the assignee.

F: About premium payments to your Plan

F1: When premiums are due

The first premium is due on the *Start Date of your Plan*, as shown in your *Schedule*, and monthly thereafter. We will collect premiums by direct debit.

The last premium is due on the premium due date immediately before the earlier of:

- the *Expiry Date of your cover*,
- the *life insured's* death,
- the date the *Plan* is cancelled.

F2: What happens if premiums are not paid

If you do not make your first payment, your *Plan* will not start and the *life insured* will not be covered.

If a subsequent premium remains unpaid for more than two months from the date it is due, your *Plan* will be cancelled and your cover will cease.

We will write to inform you if your *Plan* is cancelled.

F3: Restarting your Plan

If your *Plan* is cancelled, you may ask us to restart it at any time up to 12 months after the first unpaid premium was due, on terms that we decide. These will include the repayment of all missed premiums.

You may need to provide us with evidence of *occupation*, state of health, smoking habits and pastimes before we decide whether to restart the *Plan*. We will write to inform you of the evidence we require.

F4: Changes to your premium payments

Your premium may increase or decrease as a result of any changes to the cover provided by your *Plan*.

Your premium may increase or decrease as a result of a premium review. We may undertake a review in any of the following circumstances:

For waiver of premium cover - change of *occupation* by the *life insured* or *living abroad*.

For critical illness or combined life and critical illness cover - if we need to reassess the assumptions we have made in calculating your current premium. These assumptions include claims levels, our expenses, inflation, taxes and the amounts we need to hold as financial reserves. We reserve the right to change premiums by an amount we believe is reasonably necessary if our actual or expected experience for these benefits is different to the assumptions we have made.

We will write to inform you at least 30 days before we increase or decrease your premium.

G: About increasing and reducing your cover

G1: Increasing your cover

You may request any of the following increases in cover at any time during the *Plan* term:

- increase an existing benefit,
- add a new benefit.

Increases are subject to upper age limits and a minimum remaining term of five years.

We will normally require medical and/or other evidence before we can consider your request. However, there are special situations where you can add or increase benefits without any medical evidence being required.

We reserve the right to decline your request or to apply special conditions, restrictions or premiums.

We will recalculate your premium to take into account the increase in cover and inform you in writing. However, there is no charge for automatic annual increases to annual benefits.

G2: Automatic increases to your annual benefit

This section applies to the annual income options on Life, Critical Illness, and Combined Life and Critical Illness Benefits.

The amount of your annual benefit will automatically increase each year by the lesser of:

- 10%
- the percentage change in the Retail Prices Index (RPI) over the year (subject to a minimum of 0%). The percentage change is calculated from the month, six months before the month of your *Plan's* anniversary, compared to the Index for the same month one year earlier. We will select another index if the RPI is replaced or discontinued.

The increased annual benefit will be rounded as we decide.

This increase will take place on the day after each anniversary of the *Start Date of your Plan*. There will be no corresponding increase in *your* premium.

G3: Optional increases in benefits without medical evidence

You may ask us to increase or add benefits to *your Plan* on the occurrence of certain special events such as childbirth or *marriage*. Subject to the following conditions and limits, these increases can be made without any further medical evidence being required. The benefit increase or addition will take place from the premium due date following *your* request.

We will recalculate *your* monthly premium, on *our* standard terms, to take account of the change in benefits. This calculation will also apply to any waiver of premium cover on *your Plan*.

Which benefits may be increased or added

You may request an increase in Life Benefit, Critical Illness Benefit or Combined Life and Critical Illness Benefit without medical evidence each time the *life insured*:

- *marries* or re-marries,
- gives birth, or becomes the biological and legal father, to a child,
- legally adopts a child, or
- purchases a property as a principal private residence with a mortgage or other loan secured on it. This does not include remortgages.

You may also request an increase in Life Benefit, or (if you are covered only for Combined Life and Critical Illness Benefit) for Life Benefit to be added, each time the *life insured*:

- loses existing life cover through expiry of a fixed term life assurance contract which was in force on the day before the start date and has run its full course, or
- joins a new employer within three months of leaving the old employer, and the new employer's pension scheme has a lower level of lump sum death-in-service benefits than those provided by the previous employer's pension scheme on date of leaving.

Maximum limits for increases or additions without medical evidence

The maximum increase or addition you may request each time one of these events occurs is the lesser of:

- £50,000 as a lump sum benefit,
- £5,000 as an annual benefit,
- 50% of the current benefit.

Conditions applying to increases or additions without medical evidence

We will not allow increases or additions to benefits without medical evidence:

- if the existing benefit(s) have not been provided on standard terms,
- whilst premiums are being waived,
- if the *life insured* is over age 54,
- within five years of the *Plan Expiry Date*,
- if the *life insured* is living abroad, or
- if the request is made more than three months after the event has occurred.

We will require evidence that the event has occurred.

You are limited to a total allowance for increases in benefit on this *Plan* and any other *Plans* you hold with Forester Life.

The total allowance is £100,000 for lump sum benefits and £10,000 for annual benefits.

We may apply a minimum premium to increases or additions.

G4: Reducing your cover

You may request a reduction in, or removal of, any of the benefits on *your Plan* at any time. We will recalculate the premium to take account of the reduction in cover and inform you in writing. We reserve the right to apply special conditions or restrictions. This may include a minimum premium on *your Plan*.

If the effective day for any calculation or action under any of the Conditions contained in this document is not a working day the effective day will instead be the next working day.

We reserve the right to adjust *your* benefits if the *life insured's* date of birth, sex, occupation or smoking status is incorrectly stated to us at any time.
