WAM (dollar-weighted average maturity) 47.37Days

WAL (dollar-weighted average life) 67.70 Days

WAM is a weighted average maturity of all of the securities held in the Fund. WAL is a weighted average of the life of the securities held in the Fund. The difference between WAM and WAL for money market funds is that WAM takes into account interest rate resets and WAL does not. Both WAM and WAL take into account a security's demand features.
